Waldorf Astoria Beijing is a landmark in the heart of the Wangfujing district, and an icon where time transcends through the rich Chinese tradition to today's sophisticated affluent lifestyle. Bronze is ornately used as a main element in the design concept of the whole hotel, offering a refined sanctuary in the downtown business district of Beijing. Due to its brilliant figure, the hotel looks gorgeous outside and inherits classical traditions because of its restrained luxury inside. The ancient atmosphere of Beijing and the historical sentiment is shown to the world in Waldorf Astoria Beijing.
