Install the product properly according to the directions in this Installation Manual.  
When the installation is over, be sure to enter the name of your company and the date of installation on the warranty card attached to the Instruction Manual and hand it over to the customer together with the Instruction Manual.

## Safety Precautions (Observe the following matters for safety sake.)

Read these "Safety Precautions" carefully before installation in order to install the product properly.

- In this Installation Manual, various indications are used to ensure the product is installed properly and to prevent risk to the customer and other people, and damage to property.
- The kind of observance is categorized by the following pictograms.

The indications and their meanings are as follows.

Indication	Meaning
 Cautions	Handling the product contrary to this indication may result in injury or damage to property.
	means that "something must be done" or "is required". The left figure indicates that "must do something".

### Precautions in Installation

 Cautions	 must do something	<b>If the installation side is concrete ground only, be sure to use the attached plastic plug.</b> Otherwise, the installation side becomes unstable and the product may fall off and injure you.
		<b>Use the attached screws for installation.</b> Otherwise, the installation side becomes unstable and the product may fall off and injure you.
		<b>When installation is completed, check the product's stability.</b> If the installed product is unstable, it may fall off the wall or the wall may break causing the user to fall and get injured.
		<b>Install the towel bar in a location where your head does not hit them. As a reference, ensure 1700 mm between the finished surface of the floor and the towel bar.</b> Otherwise, you may get injured.

Tip for Installation

- If any flaws are found in the wall, prepare a flat surface using washers or spacers.
